

MICROJET[®]

PR-140

The MICROJET[®] is designed for blowing or floating telecommunication and data transmission microcables (optical fiber, coaxial or multipair) in preinstalled ducts

ADVANTAGES :

- ☑ light and compact design
- ☑ easy use
- ☑ possibility to install long sections of microcable safely over tortuous routes
- ☑ safety for both personnel and cable
- ☑ can be used on outdoor and indoor cable construction sites

Type	Pushing force (N)	Max. speed (m/min)	Recomm. speed (m/min)	Diameter of cable (mm)	Outer diameter of duct (mm)	Max pressure (bar)	Dimension (mm)	Weight (kg)
PR 140	150	120	50	3.5-8	7-12	16	260x250x270	6

CHARACTERISTICS :

- operates as : PUSHER, PULLER, PNEUMATIC PUSH-PULL, JETTING or WATER FLOATING UNIT
- can also be used as an intermediate assist for cascading
- possibility to achieve more than 1000 meters depending on quality of micro duct route and material, and properties of micro cable
- possibility to remove old and place new microcables, in one step
- bi-directional
